DETAILED ACTION

1. Receipt is acknowledged of the Amendment filed on December 8, 2005. Claims 1-23 are pending in the application.

Allowable Subject Matter

2. Claims 1-23 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Applicant's arguments with respect to the rejection of claims 1 and 12 in paragraphs 2 and 3 on page 7 and paragraph 2 on page 8 have been fully considered and are persuasive. In addition, the means clause (a tip on the distal end of the probe for injecting the probe into tissue) in the applicants' claims 1 and 12 are interpreted in light of the corresponding structure, material, or acts described in the applicants' specification (paragraphs [0022]-[0028]), and equivalents thereof. See *In re Donaldson*, 16 F.3d 1189, 1193, 29 USPQ2d 1845, 1848 (Fed. Cir. 1994) (in banc). Therefore, the prior art does not teach, suggest or render obvious the claimed low capacitance measurement probe in combination as claimed including:

- An outer conductor, a non-conductive spacer, a conductive layer, an insulating layer and an inner conductor; and
- A tip on the distal end of the probe for injecting the probe into tissue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
